- "Just Caring: Health Care Rationing and Health Reform," nursing forum sponsored by Beaumont Hospital in Troy (April, 1993).

"Just Caring: Health Care Rationing and the Elderly," noon conference sponsored by College of Medicine, Wayne State University (March, 1993).

"Just Caring: Conflicting Rights, Uncertain Responsibilities." During academic year 1992-93 we continued doing the four-hour workshop for community leaders at a large number of communities around Michigan. Each of these workshops involved our interactive computer demonstration using case scenarios and policy scenarios to explore some of the moral issues raised by health care rationing. This was all done under the auspices of the AULEG grant. Below is a list of the communities in which the program was done during this period: Adrian, MI (Oct., 1992); Port Huron, MI. (Nov., 1992); Michigan Medicaid Program staff (Nov., 1992); annual meeting of the Association of Lutheran Ministers in Chicago (Nov., 1992); Wayne County (Inkster) (Nov.,1992); Farmington Hills (Nov., 1992); University of Detroit-Mercy (Dec., 1992); Mt. Clemens (Dec., 1992); Henry Ford Health Systems Annual Directors Meeting in Dearborn (Nov., 1992); MSU Retirees Club in East Lansing (Jan., 1993); Michigan Department of Public Health Annual Conference in Dearborn (Feb., 1993); Kalamazoo (Feb., 1993); Cottage Hospital medical staff in Grosse Point (March, 1993); Holland, MI. (March, 1993); Henry Ford Hospital management and staff in Detroit (April, 1993); Sparrow Hospital Auxiliary Conference (April, 1993); Saginaw (April, 1993); Alpena (June, 1993); Lansing (June, 1993); Cadillac (June, 1993; Grayling (June, 1993); Alma College Summer Program for Gifted High School Students (June, 1993); Michigan Public Health Professionals Annual Conference in Ann Arbor (June, 1993); Intensive Summer Workshop in Health Care Ethics in East Lansing and sponsored by MERN (July, 1993).

"Just Caring: Health Care Rationing and Health reform," lecture to MSU pre-med students and their parents (April, 1993).

"Ethical Issues in Obstetrics and Gynecology: Maternal/Fetal Conflicts," lecture for Ob/Gyn residents in southeast Michigan (May, 1993).

"Just Caring: Rationing, Health Care Justice, and Health Reform," lecture at annual meeting of Alliance for Health in Grand Rapids (May, 1993).

"Just Caring: Health Reform for the 1990s," for Michigan Farm Bureau conference in Lansing (June, 1993).

"Just Caring: Health Reform and the Future," conference sponsored by Michigan Services for the Aged in Lansing (July, 1993).

"Ethical and Legal Considerations in the Post-Cruzan Era," for the Michigan Non-Profit Homes Association in Lansing (March, 1991).

"Preparing for the Patient Self-Determination Act: Moral and Legal Issues," for the Michigan

Hospital Association, in Grand Rapids and in Novi (March, 1991).

"Just Caring: Justice, Resource Allocation, and the Terminally Ill," "Choice or Chance: Responsible Decisionmaking at the End of Life," a grand rounds presentation and a workshop for health and social service professionals at Munson Medical Center in Traverse City (March, 1991).

"Justice, Health Care Rationing, and the Oregon Plan," keynote address for conference of the Michigan Home Health Association in Grand Rapids (February, 1991). I also directed a workshop at this conference for the social workers in home health care. The workshop was organized around a number of cases they generated from their experience, which they found morally problematic.

"Choosing Death: The Cruzan Decision and Beyond," Grand Rounds for Medicine at St. Lawrence in Lansing (Dec., 1990).

"Just Health Care Financing: Should Doctors Support National Health Insurance?" noon conference at Hurley Medical Center in Flint (Jan., 1991).

"Just Caring: Rationing Health Care Fairly," grand rounds presentation for OB/GYN Department at the University of Michigan Medical Center in Ann Arbor (March, 1991).

"Electric Anti-Ethics: Computers and Confidentiality in Health Care," presentation at statewide conference for medical records professionals in Southfield, Michigan (March, 1991).

Pediatric Noon Conference at Hurley Medical Center in Flint, Michigan (March, 1991).

"Medico-Moral Problems for the 1990s: Challenges and Choices," noon conference at Mercy Memorial Hospital in St. Joseph, Michigan (April, 1991).

"Just Health Care Financing: Should the Elderly Vote for National Health Insurance over Medicare?" presentation for the fourth annual geriatrics conference sponsored by Aquinas College in Grand Rapids, Michigan (April, 1991).

"Living Wills and Responsible Decisionmaking Regarding the Right to Die," lecture for the Kaleidoscope program at Michigan State University, "A Day for Women" (April, 1991).

"What Kind of Life?: Critical Commentary," session of the North American Society for Social Philosophy which I chaired at the Central Division meeting of the American Philosophical Association in Chicago (April, 1991). This session was a critical discussion of Daniel Callahan's recent book What Kind of Life: The Limits of Medical Progress.

"Terminal Care Choices: Who Should Decide?" public lecture sponsored by Battle Creek Health Care Systems and Kellogg Community College at Kellogg Community College in Battle Creek, Michigan (May, 1991).

"HIV-Infected Health Professionals: Do Patients Have a Right to Know," presentation at MERN Annual meeting in Lansing, Michigan (May, 1991). I did a second workshop at this annual meeting titled "Rationing Health Care: The Challenge to Hospital Ethics Committees."

"Withdrawing and Withholding Life-Sustaining Care: The Moral Issues," for noon nursing conference at Hayes/Beach Hospital in Charlotte, Michigan (May, 1991).

"Hospital Ethics Committees: Pros and Cons," noon conference for Coldwater Medical Center in Coldwater, Michigan (May, 1991).

"Ethical Issues in Head Trauma cases," presentation for neurology conference at Sparrow Hospital (May, 1991). This conference was sponsored by the College of Nursing at Michigan State.

"Responsible Decisionmaking at the End of Life," Grand Rounds presentation for the medical staff at Gratiot Community Hospital in Alma, Michigan (May, 1991). I did a version of this presentation as a public lecture. I did a case conference with their ethics committee at noon, and I did a workshop on moral issues related to death and dying for their nursing staff and ancillary health professionals.

Served on Mayor's task force on land use and zoning, headed by Rick Carey (June, 1981).

"Humanistic Reflections on Death and Dying," a presentation that was part of Hospice training program for volunteers (May, 1981).

"Doing Better and Feeling Worse: Health Care Policy in the United States," a presentation to the Elkhart League of Women Voters (April, 1981).

"Seeking an Agenda for the '80s," a presentation to AFL-CIO CAP Council Meeting (April, 1981).

Television interview on topic of health care policy in the United States, Bill Darwin Show, WSJV-TV (April, 1981).

"Humanizing Death and Dying," a presentation to Delta, Kappa, Gamma at Goshen Hospital Auditorium (March, 1981).

"Seeking an Agenda for the '80s," a presentation at the statewide Home Grown Humanities conference sponsored by the Indiana Committee for the Humanities in Indianapolis (March, 1981).

"The Meaning of Death from a Humanistic Perspective," a presentation as part of the training program for volunteers for the Hospice of St. Joseph County (November, 1980).

"Corporate Takeovers: The Selling of the University 1980," a presentation to the Women's Club of Indiana University (October, 1980).

"Affirmative Action and Reverse Discrimination: The Moral Issues," a presentation as part of the second seminar in the "Images and Ideals" project (October, 1980).

"Nuclear Energy: Some Ethical Issues," a presentation as part of the fourth seminar in the "Images and Ideals" project (October, 1980).

"On the History and Philosophy of Hospice," a presentation in a training program for volunteers for the Hospice of St. Joseph County (October, 1980).

"Hospice as a Community of Care for the Dying" a presentation to the Progress Club of South Bend (October, 1980).

"With Liberty and Justice for All? The Moral Dimensions of Public Policy for the '80s," a presentation as part of the orientation seminar in the project "Images and Ideals/Challenges and Choices: Seeking an Agenda for the '80s" (September, 1980).

I served as the chairman for a public hearing conducted at Indiana University-South Bend by the President's Commission for a National Agenda for the '80s. This hearing served to launch our own community project "Images and Ideals/Challenges and Choices: Seeking an Agenda for the '80s." The members of the Commission were here for two days and I was responsible for organizing the hearing and planning their visit to various parts of South Bend (August, 1980).

I also served as a member of a national panel that was convened twice in Indianapolis by Professor William May of Indiana University for purposes of planning a series of radio programs that would deal with issues in medical ethics (January and May, 1980).

I did the basic script for a half-hour videotape on "Value Clarification for Public Managers." The script consisted of a real world problem situation involving staff cut-backs that raised a number of important value questions. I served also as an actor in producing that videotape.

"Medical Ethics: Issues for the '80s," a presentation at the Annual Meeting of the St. Joseph County Medical Society (January, 1980).

"Hospice as a Community Resource: A Philosophic Overview," a presentation as part of the training program for staff and volunteers of the Hospice of St. Joseph County (January, 1980).

"Philosophic Reflections on Death and Dying," a presentation as part of the training program for staff and volunteers of the Hospice of St. Joseph County (January, 1980).

"Abortion: A Moral Assessment," a presentation for the Mother's Club of the First Presbyterian Church (November, 1979).

"MBO: A Critical Appraisal." a presentation as part of the project "Public Management for the

'80s," at Indiana University-South Bend (October, 1979).

"The Second Genesis: Man's Re-creation of Man/The Moral Dimensions of Biological Engineering" a presentation to the Medicine and Religion Committee of the St. Joseph County Medical Society (October, 1979).

"Euthanasia: The Moral Issues" a presentation at Healthwin Hospital for a group of nurses there (October, 1979).

#### **IV. RECENT CONSULTING RESPONSIBILITIES**

**Consulting for “Research Ethics in the Clinical, Biomedical, and Public Health Sciences,” NIH grant to the University of Illinois at Chicago College of Medicine, 1998-2001. My responsibilities under this grant include serving on the Advisory Board, developing relevant materials, planning conferences, doing an occasional lecture or workshop. I have thus far participated in two two-day meetings in connection with this project.**

**Consulting for three years as a member of the Advisory Board for a recently funded ELSI [Ethical, Legal, Social Implications of the Human Genome Project] project conducted by The Hastings Center under the title “Tools for Public Conversation About Behavioral Genetics.” This was for the period 1999-2002. I am responsible for helping to plan conferences, meeting with a number of other scholars to discuss policy issues, writing papers for an eventual volume of essays. I have participated in two three-day meetings thus far, one at The Hastings Center (May, 2000), the other in Washington DC at the American association for the Advancement of Science (Jan. 2001). For that first meeting I did a presentation on our NIH community dialogue project, emphasizing some of the creative things we have done to engage the public in these conversations.**

**Consulting with Southeast Michigan Hospital Association to develop case vignette materials as basis for public forums about issues regarding end of life care, including advance directives, futile treatment, quality of care, health care rationing, cultural diversity (six meetings, 1998-99).**

**Consultant to ethics committee of Mt. Clemens General Hospital (1994-97)**

**Consultant to Kellogg Foundation, Comprehensive Community Health Models Project; Board member for the project; responsible for developing ethics materials for community health planning workshops in Battle Creek, Port Huron, Muskegon, Marshall, Albion. (1994-97)**

**Consultant to Henry Ford Health Systems for Managed Care College Project, responsible for developing workshops on ethical issues in managed care.**

**Consultant to Department of Social Services, state of Michigan, Medicaid program; responsible for developing materials for Medicaid Block Grant and Priority-Setting workshops, delivering workshops, analyzing data and generating reports (Summer, 1995).**

**Consultant to Senate Health Policy Committee (state of Michigan), responsible for working with health care organizational leaders to develop mission statement on health care for the state of Michigan (Summer, 1995).**

**Consultant to University of Michigan, Genome Ethics Committee**

**Faculty Mentor for Susan Goold, M.D., Picker/Commonwealth Scholars Program  
Foundation for Health Services Research**

**Consultant for National Study Group for project "Ethics, Genetics, and  
Alzheimer's Disease," funded by NIH ELSI Program, Case Western Reserve  
University in Cleveland. (1994-96)**

**Consulting to Managed Care Institute, College of Human Medicine**

**Consultant to Greater Detroit Area Health Council on Medicaid Block Grants**

**Shadyside Hospital in Pittsburgh, PA**

**MetroMed of Detroit (now part of Henry Ford Health Care System); developed  
materials for workshop on ethical issues in managed care as part of Managed Care  
College Program. This is now developing into a multi-institutional educational  
effort with seed money from Blue Cross/ Blue Shield.**

**Michigan Hospital Association; developing various educational programs  
that address ethical issues related to patient care, health reform, and health care  
policy.**

**Consultant to The Hastings Center for a project aimed at constructing a philosophical  
model  
that would provide a basis for determining funding priorities with regard to  
mental illness. In other words, this would be the mental health analogue of the  
priority  
setting process in Oregon. There were about twelve of us invited to serve in this  
role. My understanding is that The Hastings Center was successful in obtaining  
funding for this project. (July, 1991). The report from this project is published in  
the October (1993) issue of The Hastings Center Report, where my contributions  
are acknowledged.**

**Consultant to the Michigan Department of Public Health Ad Hoc  
Committee on HIV-Infected Health Care Workers. I was asked  
to serve as the staff ethicist for this committee; and I  
was asked to serve in this role because of the paper Keith  
Apelgren and I produced on this topic early in 1991. This  
paper provided the rough foundation for the work of this  
committee and resulted in a set of recommendations that  
were much more reasonable and morally defensible than  
those that had been promulgated by the CDC in July of  
1991. The final report of this committee was issued on  
October 1, 1991 under the title "Michigan Recommendations**

**on HIV-Infected Health Care Workers." It has been circulated to a number of national medical and dental groups who have endorsed it; and it is our hope that this will eventually result in a change of direction by the CDC on this issue. (March- October, 1991). [That change of direction in fact occurred.]**

**Consultant to the Transplant and Health Policy Center, Public Policy Committee at the University of Michigan, starting in late 1990.**

**Consultant to the Kellogg Foundation for the "Alternative Comprehensive Community Models Proposal for Health Care Reform," directed by Bruce Spitz of Brandeis University. I am one of sixteen individuals serving in this role, the majority of whom are also directly connected with the "Just Caring" project. My responsibilities in connection with this project started in November of 1991.**

**Vice-President of the Board of The Medical Ethics Resource Network of Michigan (1990-92). In April of 1992 I was elected President of the Board (1992-94). I was one of the founding members of MERN and, for all practical purposes, I currently serve as an unofficial executive director for MERN. That is, I am responsible for supervising the daily operations of MERN, including the graduate students responsible for our newsletter and for addressing the needs of our institutional members.**

**Media Contacts (2000-01):** About 25 interviews with different radio and TV stations, and newspapers, regarding a broad range of bioethics topics in the news during 2000 and the first half of 2001, especially genetics issues, stem cell research, cloning, physician assisted suicide, Medicare reform, Patients' Bill of Rights, and other health policy issues during this past year. Most of these media outlets were somewhere in Michigan. Some were quite extensive. I did a three-hour stint on the air for WLNS, Ch. 6 television during Clinton's visit to Lansing for the summer of 1999, commenting on both the Medicare issues and Patients' Bill of Rights issues. I am also on the commentator list for Roger Sergel of ABC NEWS, which means I receive regular requests for comment on issues related to medical ethics and health care policy. I did at least three interviews with AP reporters. More generally, in any given year since 1985 I have usually had 15-25

contacts with the media during that year, all sorts of brief interviews on some news event of the day.

## V. GRANTS

**“Communities of Color and Genetics Policy,”** NIH three-year renewal grant for \$1.1 M (Dec. 1998-Dec. 2001); this is a joint project with the School of Public Health at the University of Michigan and Tuskegee University; U of M is the lead institution. Our share of this grant is about \$150K. This grant is under the auspices of the ELSI program at NIH (Ethical, Legal, and Social Implications of the Human Genome Project). It is a follow-up to our original NIH project **“Genome Technology and Reproduction: Values and Public Policy”** (1995-98) also funded at about \$1.1 M. I serve as a co-principal investigator for this project with primary responsibility for the community dialogue phase of the project. I am responsible for developing the leaders= guides we use as an agenda for each community dialogue, training the dialogue facilitators and dialogue observers, meeting with community groups to assist in recruiting participants, analyzing the results of the dialogue process and then presenting those results at assorted conferences and in peer-reviewed journals. There have been a total of about 90 community dialogue sessions, six at each of fifteen community sites. Most of those dialogue sessions occurred during calendar 2000.

### **"Just Caring: Justice, Health Care, and the Good Society."**

(1990-93) The Center for Ethics and Humanities in the Life Sciences received a \$15,000 AULEG seed grant [All University Life-Long Education Grant] to support the planning phase of this project, including the resources needed to secure an additional project funding. This will be a statewide project that will create community forums in which issues of justice regarding health care policy can be comprehensively addressed. This project is fully described in a paper with the same title that was produced for the Governor's Task Force on Access to Health Care. During 1992-93 I secured more than \$30,000 in supplementary funding for the "Just Caring" project from various community foundations, businesses, the Mercy Corporation, Blue Cross/Blue Shield, etc.

**"Pricing Human Life: Moral and Public Policy Dilemmas."** This was a pilot project in Flint, Michigan. It was similar in terms of type of issues to the Goshen project, but it involved only six seminars in the spring of 1986. Flint is one of the community campuses of the medical school. This project was supported by a grant from the Michigan Council for the Humanities.

### **"Just Caring: Justice, Health Care, and the Good Society."**

(1985-87) A grant from the Indiana Committee for the Humanities for \$16,500. This project was sponsored by the Ethics Committee of Goshen General Hospital. It involved 12 seminars during 1986 and 10 community discussions on a range of

issues connected with ethics, economics, and healthcare policy. The project was intended to model how a coherent, complex, extended community conversation on moral and policy issues can be developed and sustained. I directed each seminar, wrote 12 newspaper articles, and developed other resource materials.

**“Images and Ideals/ Challenges and Choices: Seeking an Agenda for the 80s.”** This was a challenge grant for \$30,000 awarded by the Indiana Committee for the Humanities. I raised an additional \$30,000. (1980-83). This project was a novel approach to community leadership development which focused on developing the abilities of emerging community leaders to think through more carefully many of the value conflicts associated with public policy development. There were 24 seminars that were part of each two-year cycle in the project.

**“The Search for Health: Alternatives in Care, Conflicting Rights, Uncertain Responsibilities,”** (1976-78), funded by a grant for \$40,000 from the Indiana Committee for the Humanities. I served as a project director and was responsible for organizing a series of six community forums in each of four Indiana communities under the title “Caring: Humanistic Perspectives on Death and Dying.”

**“Preparing for the >80s: Workshops for Public Officials,”** (1979-80), grant for \$26,000 awarded by the Indiana Commission for Higher Education. I served as project director after writing the grant and designing the project.

**“Social Service Needs Assessment: A Problem Priorities Approach,”** a grant for \$10,000 from the United way of Elkhart County (1984) to assist their Board in developing a better approach to determining their funding priorities. [Note: This grant, and the three above that, were awarded to the School of Public and Environmental Affairs at Indiana University-South Bend, where I was a faculty member.]

NEH Summer Research grants (1984) to work with Professor Marcus Singer at the University of Wisconsin, and in 1977 to work with Professor Mulford Q. Sibley at the University of Minnesota.

## V. PROFESSIONAL RECOGNITION

**University Distinguished Faculty Award from Michigan State University (2003).**

**Distinguished Faculty Award, College of Human Medicine, Michigan State University (2003).**

**Elected Fellow of The Hastings Center (June, 2002)**

**100 People to Watch in the New Millenium Lansing State Journal (Jan. 2000). I was identified and pictured as one of those 100 people because of my work in genetics and community dialogue.**

**Ernest A. Lynton Award for Faculty Professional Service and Academic Outreach, to be presented at conference of the American Association of Higher Education, San Diego CA (Jan., 1999)**

Summer fellowship from the National Endowment for the Humanities to participate in a seminar at the University of Wisconsin with Professor Marcus Singer, a very distinguished member of the Philosophy Department there. The title of the seminar was "Justification and Proof in Ethics."

Summer stipend (\$3,000) from the National Endowment for the Humanities for the summer of 1984 to continue work on my book Pricing Human Life: Moral and Public Policy Dilemmas.

An NEH Summer Fellowship for College Teachers to participate in a series of seminars on ethics and the social services at the State University of New York-Binghamton (1982)--- declined because of late notification and conflicting commitment.

An NEH Summer Fellowship for College Teachers to the University of Minnesota to participate in a seminar on ideals and utopias with Mulford Q. Sibley (1977).

Three-year NDEA Fellowship to St. Louis University (1966-69).
